Profile

Innovative and results-driven Frontend Engineer with hands-on experience in building scalable and maintainable web applications using React, Next.js, JavaScript, TypeScript and modern UI libraries. Adept at translating design systems into responsive, performant interfaces and collaborating across cross-functional teams to deliver impactful digital products. Passionate about clean code, user-centric design, and continuous learning.

Skills

Languages & Frameworks: JavaScript, TypeScript, React, Next.js, React Native
State Management: Zustand
Styling & UI Libraries: Tailwind CSS, Chakra UI, Material UI, Framer motion
Testing & Tools: Jest, React Testing Library, Git, GraphQL, React Query
Animations & UX: Framer Motion
Others: REST APIs, JWT/OAuth, Agile/Scrum

Professional Experience

Frontend Engineer | Terrachow | Sep 2023 – Present | Lagos, Nigeria

- Collaborated closely with product teams and designers to deliver user-centric frontend solutions.
- Focused on delivering smooth, engaging UI animations using Framer Motion, contributing to an intuitive and dynamic user interface.
- Collaborated with a cross-functional team to replicate and enhance the Nigeria Railway Corporation (NRC) website.

- Developed and maintained responsive, high-performance web applications using React, Next.js, JavaScript, and TypeScript.
- Focused on accessibility, performance optimization (Lighthouse, Core Web Vitals), and SEO best practices.
- Integrated APIs and worked with tools like Axios and Fetch to display dynamic content.
- Used Git for version control and collaboration, following best practices in branching and commit hygiene.
- Deployed projects to Vercel, leveraging features like automatic builds and custom domains.

Education

BSc. Sociology | University of Ilorin | 2017 – 2022 | Ilorin, Nigeria

Certifications

- Tech Studio Academy (Mar 2022)

Projects

Nigeria Railway Corporation (NRC) | https://nrc-gray.vercel.app/

- Built using Next.js, JavaScript, and Tailwind CSS , delivering responsive, and accessible user interface.
- Implemented interactive UI elements such as modals for success and ticket booking seat modal, improving user engagement and task flow.

Event-cove | https://discover-events-git-main-olajides-projects-93bc3a9f.vercel.app/

- List of upcoming events across various categories, including music festivals, marathons, fundraisers, and more.
- Developed mobile and web apps using Next.js and Tailwind CSS.

Trad-Express | https://trad-form-olajides-projects-93bc3a9f.vercel.app/

- A crypto website designed to help users research, invest in, and track digital assets-all in one place.
- React, JavaScript, Api integration.
